To the Honorable Mayor Jordan W. Leonard, members of the Town Council, and citizens of the Town of Bay Harbor Islands:

State law requires that all general purpose local governments publish within nine months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States (GAAP) and audited in accordance with generally accepted auditing standards and government auditing standards by licensed certified public accountants. In addition, Section 31 of the Town Charter requires that qualified public accountants shall make an independent audit of accounts for submission to the Town Council. In fulfillment of these requirements, the Town's Comprehensive Annual Financial Report for the fiscal year ended September 30, 2015 is presented for your consideration and review.

Responsibility for the accuracy and fairness of the presentation, including all disclosures, rests with the Town. We believe the information as presented is accurate in all material respects, that it is presented in a manner designed to fairly set forth the financial position and results of operations of the Town, and that all disclosures necessary to enable the reader to gain general understanding of the Town's financial activity have been included. To provide a reasonable basis for making these representations, management of the Town has established a comprehensive internal control framework that is designed both to protect the Town's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Town of Bay Harbor Islands' financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Town's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement.

Marcum LLP, a licensed certified public accounting firm, has audited the Town's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Bay Harbor Islands for the fiscal year ended September 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon their audit, that there was a reasonable basis for rendering unmodified opinions that the Town's financial statements for the fiscal year ended September 30, 2015 are fairly presented in accordance with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

Management's Discussion and Analysis (MD&A) is a narrative introduction, overview, and analysis provided by management accompanying the basic financial statements. This letter of transmittal is complementary to the MD&A and should be read in conjunction with it. The Town of Bay Harbor Islands' MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The Town of Bay Harbor Islands has 6,007 residents according to the latest available data from the U.S. Census Bureau. Located in northeastern Miami-Dade County, it is comprised of two islands in the Intracoastal Waterway. The Broad Causeway provides access from the Town to the mainland and to the beaches of the barrier island.

The Town was incorporated in 1947 and operates under a council-manager form of government. The seven-member Town Council establishes policy, enacts legislation, and adopts budgets. The Town provides a full range of services: public safety (police, building and zoning), transportation and the construction and maintenance of roads, infrastructure, and recreation facilities, operation and maintenance of a causeway, water and sewer utilities, sanitation (refuse collection), operation and maintenance of parking facilities, and general government and administrative services. Fire protection, education, and welfare services are provided by units of other local governments whose activities are not included in the accompanying financial statements.

The annual budget serves as the foundation for the Town's financial planning and control. The Town Manager presents a proposed budget to the Town Council, after having reviewed and revised budget requests from all departments. The Council holds two public hearings to receive public comment prior to adopting the final budget and tax millage. The budget must be adopted prior to September 30th. The department is the legal level of budgetary control. The Town Council must approve all supplemental appropriations and any transfers of appropriations between departments. Budget-to-actual comparisons are provided for the General Fund in the Required Supplementary Information section following the notes to the financial statements.

Factors Affecting Financial Condition

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the Town of Bay Harbor Islands operates.

Local Economy

The Town has a convenient location within easy driving distance of the cities of Miami, Miami Beach, and Fort Lauderdale, with all their commercial and employment opportunities and cultural, recreational and other amenities. The Miami and Fort Lauderdale airports, Port Everglades, and the Port of Miami are all easily accessible.

Property values have increased for four years in a row following three consecutive years of decline, though total taxable value has not yet regained its 2007 high. Extensive redevelopment of older properties continues to occur which will substantially increase the Town's tax base as redeveloped properties come onto the market. Continuing improvement in property values and in the economy is expected to have a positive impact on the Town's ability to generate revenues.

Long-term Financial Planning

Since the Town of Bay Harbor Islands is almost completely built out, its primary focus related to economic growth continues to be the redevelopment of commercial and residential properties. Many redevelopment projects are currently underway or in varying stages of the approval process including commercial, single-family and multi-family residential construction. Continued sales of transferable development rights show that higher-density and thus higher value projects are being planned and undertaken.

The comprehensive rehabilitation of the causeway corridor and bridges is well underway and will be completed within the next year. The conversion to open road tolling (from manned toll booths) has been very successful. Expenses have declined and revenues from electronic tolling and toll-by-plate billing are expected to improve when the causeway rehabilitation project is completed and the free flow of traffic is restored.

Major Initiatives

The causeway rehabilitation project is nearing completion. The conversion to Sunpass will enhance traffic flow, improve revenues, and generate substantial cost savings which can be used for debt service on the causeway borrowing and other causeway corridor projects.

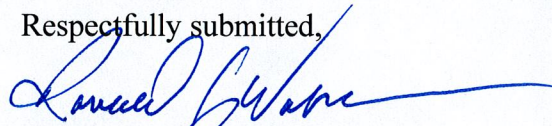

Planning for the Town's Community Center has been completed and construction has begun. The Community Center will be a major addition to the Town's recreational facilities, possibly including a branch Miami-Dade County library along with meeting and recreational space.

Awards and Acknowledgements

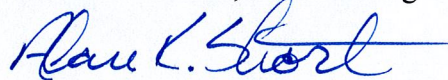

The Government Finance Officers' Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town for its comprehensive annual financial report for the fiscal year ended September 30, 2014. This was the nineteenth consecutive year the Town received the award. In order to earn the award, the Town published an easily readable and efficiently organized report that conformed to program standards, generally accepted accounting principles, and applicable legal requirements. The Certificate of Achievement is the highest form of recognition for excellence in financial reporting by state and local governments and is valid for a period of one year only. We believe the current report continues to meet the standards of the Certificate of Achievement program and we are submitting it for review by the GFOA.

As always, we would like to thank the Mayor and members of the Town Council for their support and endorsement of sound accounting, financial management, and financial reporting practices and to express our appreciation to our independent certified public accountants, Marcum LLP, for their cooperation, assistance, and professionalism. We would also like to express our appreciation to everyone on the Finance Department team for their dedication and hard work.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

INDEPENDENT AUDITORS' REPORT

Honorable Mayor, Town Council and Town Manager
Town of Bay Harbor Islands, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Bay Harbor Islands, Florida, (the Town), as of and for the fiscal year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Town's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town, as of September 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As described in Note 1 and Note 12 to the financial statements, the Town changed its method for accounting and financial reporting for pensions as a result of the adoption of Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent To the Measurement Date - an Amendment of GASB Statement No. 68*, both effective October 1, 2014, which resulted in the Town restating net position for recognition of the Town's pension related activity incurred prior to October 1, 2014. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 15, the budgetary comparison schedule on pages 59 and 60, and the required supplementary information for the pensions and OPEB on pages 61 to 63, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 21, 2016 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
MD&A

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Town of Bay Harbor Islands (the Town), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended September 30, 2015. We encourage readers to consider the information presented here in conjunction with the additional information that we have furnished in our letter of transmittal, which can be found on pages i - iv of this report.

Financial Highlights

- The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$49,193,317 (net position). Of this amount, \$18,321,131 (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's total net position increased by \$5,664,260 before a negative prior period adjustment of \$514,131 related to the implementation of GASB Statements No. 68 and 71.
- As of the close of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$8,204,420, an increase of \$2,612,192 in comparison with the prior year. Approximately 95%, or \$7,813,864, is available in the Town's general fund for spending at the government's discretion (unassigned fund balance). The \$354,577 assigned fund balance of the general capital projects fund is intended to provide resources for planned infrastructure capital projects and is not available for general discretionary spending.
- The Town's total debt decreased by \$1,399,025 (5.4%) during the current fiscal year due to scheduled repayment of existing debt.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Bay Harbor Islands' basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all the Town's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *statement of activities* presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Town of Bay Harbor Islands that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government, public safety (law enforcement, building inspections and code enforcement), transportation (street maintenance and bus service), support for the local library, and parks and recreation. The business-type activities of the Town include operation of a causeway and toll facility, as well as sewer, water, parking, solid waste disposal, and stormwater management systems.

The government-wide financial statements can be found on pages 16-17 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Bay Harbor Islands, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Bay Harbor Islands can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds* and *governmental activities*.

The Town of Bay Harbor Islands maintains two governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital projects fund (both major funds).

The Town of Bay Harbor Islands adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with this budget (page 59).

The governmental fund financial statements can be found on pages 18-19 of this report.

Proprietary Funds. The Town of Bay Harbor Islands maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses enterprise funds to account for its causeway and toll facility, as well as its sewer, water, parking, solid waste, and stormwater management operations.

The proprietary fund financial statements can be found on pages 21-24 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the Town. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Pension Trust Fund is the Town's only fiduciary fund.

The basic fiduciary fund financial statements can be found on pages 25-26 of this report.

Notes to Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-58 of this report.

Other Information

In addition to the basic financial statements and the accompanying notes, this report also presents certain *required supplementary information* including the budgetary comparison for the general fund, information concerning the Town's contributions to provide pension benefits to its employees, and the funding status of the pension and OPEB plans.

Required supplementary information can be found on pages 59-63 of this report.

Government-wide Financial Analysis

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town of Bay Harbor Islands, assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$49,193,317 at the close of the most recent fiscal year.

62.6% of the Town's reported net position is composed of its net investment in capital assets (e.g. land, building, and equipment) less any related debt and any deferred inflows/outflows used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's net investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Only 0.2% of the Town's net position is subject to external restrictions on use.

37% of the Town's net position (\$18,321,131) may be used to meet the Town's ongoing obligations to citizens and creditors.

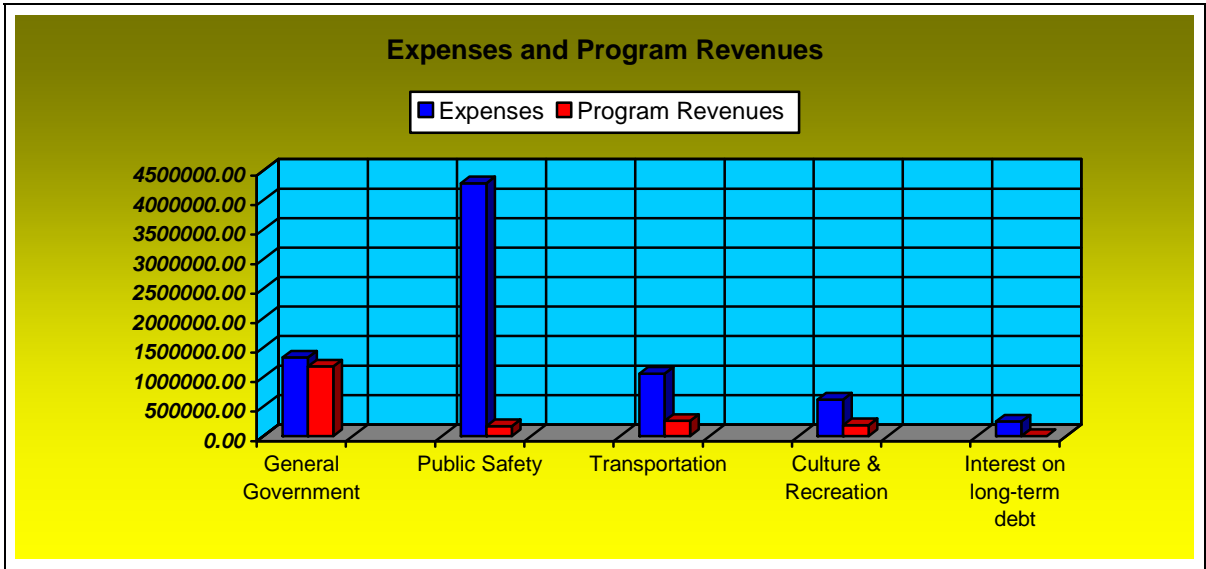

At the end of the current fiscal year, the Town of Bay Harbor Islands is able to report positive balances in all reported categories of net position, for the Town as a whole, as well as for its separate governmental and business-type activities.

Governmental Activities

The Town's governmental activities net position increased by \$2,959,606 (16.4%), to \$21,036,671 at the end of the year. The increase was net of a negative prior period adjustment in the amount of \$325,220 due to the implementation of GASB Statements No. 68 and 71 related to accounting for pension liabilities. Increased receipts from building permits and fees, development rights sales, and recreation program charges account for most of the revenue increase from the previous year. Expanded recreation program activity accounts for almost half of the increase in expenses.

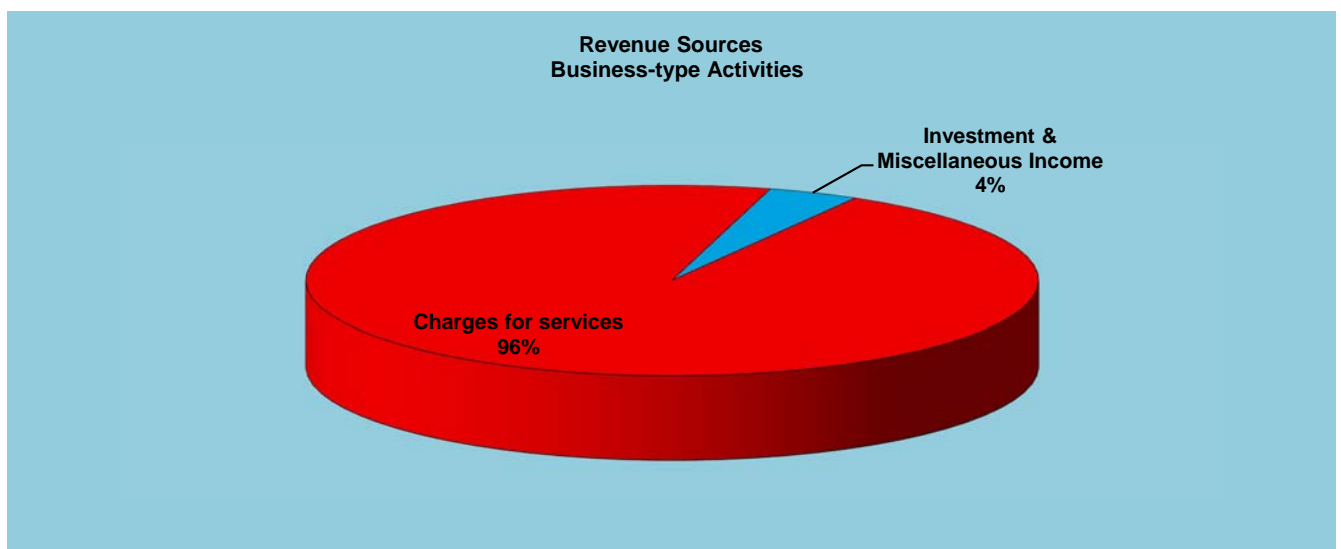

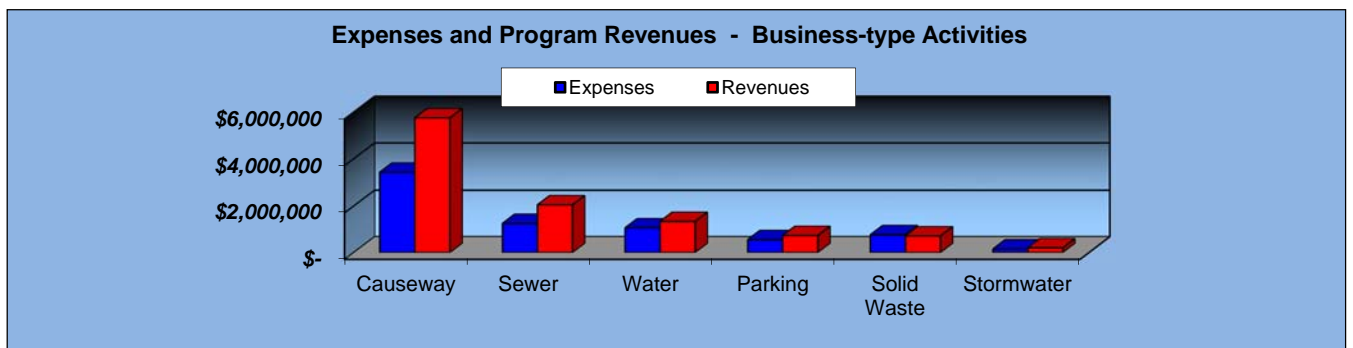

- Program revenues, comprised of charges for services, operating grants and contributions, and capital grants and contributions, were 16.6% of total governmental activities revenues (including transfers). Property taxes, 30.8% of total revenues for governmental activities, are non-program specific and are used to fund all activities not covered by program revenues.

Business-type Activities

Business-type activities increased the Town of Bay Harbor Islands' net position by \$2,190,523. That increase was net of a negative prior period adjustment in the amount of \$188,911 due to the implementation of GASB Statements No. 68 and 71. The causeway, sewer, water, parking and stormwater funds generated substantial operating income. The solid waste fund continued to operate at a loss due to increased disposal costs with customer charges unchanged since the year 2000. Including non-operating revenues and expenses, all enterprise funds except the solid waste fund generated income before transfers. Net transfers from the Town's business-type activities to its governmental activities increased by about 1.2% to \$1,692,655, including planned transfers to fund debt service on the bonds issued to fund the Community Enhancements Project.

- Causeway fund revenues decreased 3.3%, while expenses declined by over 34%, due to bridge rehabilitation construction and the elimination of manned toll booths.
- Sewer fund and water fund revenues increased due to rate increases; both water and sewer fund expenses increased slightly.
- Parking fund revenues decreased due to lower parking trust receipts.
- Solid waste disposal costs continued to increase while revenues declined because of temporary losses of apartment and condominium units due to redevelopment. Stormwater fund revenues were little changed from previous years; costs increased due to additional maintenance and repair of outfalls.

Financial Analysis of the Government's Funds

As noted earlier, the Town of Bay Harbor Islands uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Town's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town of Bay Harbor Islands' governmental funds reported combined ending fund balances of \$8,204,420, an increase of \$2,612,192 in comparison with the prior year. Revenues increased substantially, mostly due to higher property tax receipts, license and permit fees, and most significantly, increased sales of transferable development rights. Total transfers from the Town's proprietary funds increased by 1.2% to just less than \$1.7 million. General fund expenses increased, with the bulk of the increase due to renovation of town hall bathrooms and elevators, increased expenditures for recreation programming, and costs associated with the new community center. Of total fund balance, 95%, or \$7,813,864, is general fund *unassigned fund balance*, which is available for spending at the Town's discretion. The remainder of fund balance is either *non-spendable* to indicate that it is not available for new spending because it is associated with inventory or prepaid items (\$28,493), *restricted* for specific uses by law or contract (\$7,486), or is *assigned* such as the fund balance of the general capital projects fund intended to fund capital projects (\$354,577).

General Fund

The general fund is the main operating fund of the Town of Bay Harbor Islands. At the end of the current fiscal year, unassigned fund balance of the general fund was \$7,813,864 while total fund balance was \$7,849,843. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 96.9% of total general fund expenditures, while total fund balance represents 97.4% of that same amount.

Fund balance of the Town of Bay Harbor Islands' general fund increased by \$2,769,005 during the current fiscal year. Property taxes, sales of transferable development rights, recreation program fees, and license and permit fees all increased. Expenditures also increased (town hall renovations, community center planning, and recreation programming), but to a lesser degree.

The amount of General Fund revenues by type, their percent of the total and the amount of change compared to last fiscal year are shown in the following schedule:

- Property taxes increased due to higher property values.
- Licenses and permits gained due to increased construction and remodeling activity.
- Development rights sales represent a sale of limited assets rather than a permanent income stream.

Expenditures in the General Fund are shown in the following schedule:

While there were general cost increases due to contractual and budgeted salary increases, most of the increased expenditures were due to renovations of town hall public restrooms and elevators, spending for the new community center, and increased costs for expanded recreation programming.

Capital Projects Fund

- Fund balance in the capital projects fund decreased by \$156,813 due to expenditures for the community infrastructure rehabilitation and enhancement project. That project is substantially complete except for lighting and utility pole enhancements.

Proprietary Funds

Statements for the Town's proprietary funds provide the same type of information found in the business-type activities sections of the government-wide financial statements but in more detail. As noted above in the discussion of business-type activities, all of the Town's enterprise funds except the solid waste fund generated income before transfers. Costs for solid waste disposal increased with no corresponding increase in user charges resulting in the operating loss.

For the proprietary funds as a whole, net position increased by \$2,379,434 during the fiscal year, which was partially offset by a prior period adjustment related to the implementation of GASB Statements No. 68 and 71 relating to accounting for pension costs and liabilities in the amount of (\$188,911), for a net increase of \$2,190,523.

General Fund Budgetary Highlights

During the past year, the budget was modified several times, increasing the total budget amount by \$740,787. The major elements of this increase are as follows:

- \$282,160 for the Officer Scott A. Winters Park.
- \$210,297 for the Community Center.
- \$81,741 for the license plate reader system.
- \$150,000 for the renovation and rehabilitation of the Town Hall elevators.

For total revenues, there was a favorable budget variance of \$2,634,073, almost completely due to unbudgeted sales of transferable development rights owned by the Town.

Total expenditures were \$1,897,229 less than budgeted due to unspent appropriations for capital improvements and equipment mostly related to the community center.

Capital Assets and Debt Administration

Capital Assets

The Town of Bay Harbor Islands' investment in capital assets for its governmental and business-type activities as of September 30, 2015, amounts to \$52,912,625 (net of accumulated depreciation). This investment in capital assets includes intangible and tangible assets including land, buildings and improvements, furniture and equipment, causeway, toll collection, water, and sewer systems, as well as construction in progress. Capital assets do not include governmental infrastructure assets prior to 2004, as GASB 34 did not require Phase III governments to report infrastructure retroactively. The Town's investment in capital assets for the current fiscal year increased by \$5,685,084.

Additions to capital assets for governmental activities before depreciation and net of transfers from construction in progress were \$799,235, while disposals amounted to \$56,991, for net additions of \$742,244.

Business-type activities' capital asset additions before depreciation and net of transfers from construction in progress totaled \$6,871,922, while disposals amounted to \$14,672, for net additions of \$6,857,250.

The Town of Bay Harbor Islands' total debt decreased \$1,399,026 as a result of scheduled repayments. Additional information on the Town's long-term debt can be found in note 8 on pages 44-48 of this report.

Economic Factors and Next Year's Budgets and Rates

The following are major considerations included in the preparation of the Town of Bay Harbor Islands' budget for the 2016 fiscal year.

- The Town's millage was reduced from 4.9 to 4.55. Since taxable values increased, a modest increase in tax revenues is anticipated.
- Water rates were held constant and it is expected wholesale water rates paid by the Town will remain flat throughout the year.
- Sewage rates were increased in anticipation of higher wholesale sewage rates being charged to the Town.
- Solid waste rates were raised for the first time in many years. Rates were raised 3% in the first of three planned annual increases in the aggregate amount of 10%.

Requests for Information

This financial report is designed to provide a general overview of the Town of Bay Harbor Islands' finances for all those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Town of Bay Harbor Islands, 9665 Bay Harbor Terrace, Bay Harbor Islands, Florida 33154.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

Amounts reported for governmental activities in the statement of activities
(Page 17) are different because:

Net change in fund balances - total governmental funds (Page 19)	\$ 2,612,192
--	--------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

The details of the difference are as follows:

Capital outlay	\$ 799,235	
Depreciation expense	<u>(605,310)</u>	193,925

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds.

The details of the difference are as follows:

2003B Bonds principal payment	291,000	
Issuance premium amortization	<u>7,723</u>	298,723

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

The details of the difference are as follows:

Accrued interest payable	2,010	
Compensated absences payable	(5,792)	
Net pension liability	187,055	
Net OPEB obligation	<u>(3,287)</u>	<u>179,986</u>

Change in net position of governmental activities (Page 17)	\$ <u>3,284,826</u>

NOTES TO BASIC FINANCIAL STATEMENTS

TOWN OF BAY HARBOR ISLANDS, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town is a municipal corporation which was incorporated in 1947 and adopted its first charter June 15, 1953, under the provisions of the Laws of Florida Acts of 1953, Chapter 2889. The Town operates under a "Council-Manager" form of government with the Town's Mayor serving as the head of the Town government and the Town's Manager serving as the chief administrative official.

The Town provides the following services: public safety (police) building and zoning, transportation and maintenance of roads and streets, recreation facilities, operation and maintenance of a causeway, water and sewer utilities, physical environment (refuse collection), parking facilities, and general government and administrative services. Fire protection, education, and welfare services are provided by units of other local governments whose activities are not included in the accompanying financial statements.

The financial statements of the Town have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Town's accounting policies are described below:

A. Financial Reporting Entity

The financial statements were prepared in accordance with GASB Statements related to *The Financial Reporting Entity*, which establishes standards for defining and reporting on the financial reporting entity. The definition of the financial reporting entity is based upon the concept that elected officials are accountable to their constituents for their actions. One of the objectives of financial reporting is to provide users of financial statements with a basis for assessing the accountability of the elected officials. The financial reporting entity consists of the Town, organizations for which the Town is financially accountable, and other organizations for which the nature and significance of their relationship with the Town are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Town is financially accountable for a component unit if it appoints a voting majority of the organization's governing board and it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Town or has operational responsibility. Based upon the application of these criteria, there were no organizations that met the criteria described above.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements.

Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

TOWN OF BAY HARBOR ISLANDS, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The Town reports only one nonmajor proprietary fund (the Stormwater Fund).

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees and other taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Revenues for expenditure driven grants are recognized when the qualifying expenditures are incurred. All other revenue items are considered to be measurable and available only when cash is received by the Town.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

(Continued)

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Capital Projects Fund* accounts for the acquisition or construction of various major capital projects.

The Town reports the following major proprietary funds:

The *Causeway Fund* accounts for the collection of tolls and the operation and maintenance of the causeway, including the bascule bridge over the Intercoastal Waterway and the entire traffic corridor.

The *Sewer Fund* accounts for the provision of sewer services to Town residents and businesses.

The *Water Fund* accounts for the distribution of water to Town residents and businesses.

The *Parking Fund* accounts for the collection of parking fees and the operation and maintenance of lots and meters.

The *Solid Waste Fund* accounts for the provision of solid waste disposal services to Town residents and businesses.

The Town also reports the following nonmajor proprietary fund:

The *Stormwater Fund* accounts for the provision of a stormwater management system.

Additionally, the Town reports the following fund type:

The *Pension Trust Fund* is used to account for the Town's single-employer defined benefit pension plan covering substantially all of its employees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the Town's various utility functions and various other functions of the Town. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

(Continued)

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's funds are charges to customers for services. Operating expenses for enterprise funds include the costs of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Implementation of Governmental Accounting Standards Board Statements

The Town implemented the following GASB Statements during the fiscal year ended September 30, 2015:

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*

This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures.

GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*

This Statement amends paragraph 137 of Statement No. 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability.

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, and Net Position or Equity

1. Deposits and Investments

The Town's cash and cash equivalents include cash on hand, time and demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Short-term investments are reported at cost, which approximates fair value. All other investments are carried at fair value as determined by quoted market prices.

Investments of the Town are governed by the provisions of Florida Statutes Section 218.415. Investments in the Town's retirement plan are governed by the Plan's investment policy and Florida Statutes Section 112.661.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

3. Capital Assets

Capital assets, which include property, plant and equipment, infrastructure assets (e.g., utility plant, roads, bridges, sidewalks, and similar items), and intangible assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The Town has not retroactively reported infrastructure assets acquired prior to the implementation of GASB Statement No. 34. The Town did not retroactively record their intangible assets with the implementation of GASB Statement No. 51, with the exception of computer software which was capitalized when purchased. The Town's capitalization threshold for intangible assets is \$25,000.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the asset constructed.

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, and Net Position or Equity (Continued)

3. Capital Assets (Continued)

Capital assets of the Town are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	25-50
Improvements other than buildings	5-10
Furniture, fixtures and equipment	5
Utility system	10-50

4. Compensated Absences

It is the Town's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Upon separation from service, employees are paid the value of their accumulated vacation, plus one half the value of unused sick leave up to 45 days. All vacation and sick leave pay are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements. Compensated absences of governmental funds are typically liquidated from the general fund.

5. Long-Term Obligations

In the government-wide financial statements, and the proprietary fund type financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond issue costs are expensed as incurred. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line amortization method. The results of using this method do not differ significantly from the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as another financing source. Premiums received on debt issuances are reported as another financing source while discounts on debt issuances are reported as another financing use. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, and Net Position or Equity (Continued)

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town reports within its government-wide statement of net position as deferred outflows amounts contributed during fiscal year 2015 into the Town of Bay Harbor Islands Employees' Retirement System. The net pension liabilities associated with the Plan were measured as of September 30, 2014. The amounts paid during fiscal year 2015 to the Plan will be reflected within the Town's pension expense and related liability when the net pension liability is measured for the next fiscal year.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has two items that qualify for reporting in this category. The proprietary funds statement of net position includes deferred Parking Trust receipts. These amounts are deferred and recognized as an inflow of resources in the period that they are earned. Also, within the government-wide statement of net position the Town reports as deferred inflows amounts representing the net difference between differences between expected and actual results, changes in assumptions and projected and actual earnings of its pension plan. The amounts will be amortized over a five year closed period beginning in the year in which the difference occurred or over the remaining service live of employees, as applicable.

7. Fund Equity

The Town reports the following classifications:

Nonspendable fund balance. Nonspendable fund balances are amounts that are (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted fund balance. Restricted fund balances are amounts that can be spent only for specific purposes stipulated by (a) external resource providers such as creditors (by debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, and Net Position or Equity (Continued)

7. Fund Equity (Continued)

Committed fund balance. These amounts can only be used for the specific purposes determined by a formal action (Ordinance/Resolution which are equally binding) of the Town Council, the Town's highest level of decision making authority. Commitments may be changed or lifted only by the Town Council taking the same formal action (Ordinance/Resolution) that imposed the constraint originally. Resources accumulated pursuant to stabilization arrangements sometimes are reported in this category.

Assigned fund balance. Assigned fund balances are amounts that are constrained by the Town's intent to be used for specific purposes, but are neither restricted nor committed. Intent is established by the Town Manager to which the Town Council has delegated the authority to assign, modify or rescind amounts to be used for specific purposes. This balance includes (a) all remaining amounts that are reported in governmental funds (other than the General Fund) that are not classified as nonspendable, restricted, or committed, and (b) amounts in the General Fund that are intended to be used for a specific purpose as assigned by management. Specific amounts that are not restricted or committed in a special revenue or capital projects fund are assigned for the purposes in accordance with the nature of their fund type. Assignment within the General Fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the Town itself.

Unassigned fund balance. This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

8. Net Position

Net position of the government-wide and proprietary funds is categorized as net investment in capital assets; restricted or unrestricted. Net investment in capital assets is that portion of net position that relates to the Town's capital assets reduced by accumulated depreciation and by any outstanding debt and deferred inflows or outflows, incurred to acquire, construct or improve those assets, excluding unexpended proceeds.

Restricted net position is that portion of net position that has been restricted for general use by external parties (creditors, grantors, contributors, or laws or regulations of other governments) or imposed by law through constitutional provisions or enabling legislation. Unrestricted net position consists of all net position that does not meet the definition of either of the other two components.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, and Net Position or Equity (Continued)

9. Flow Assumptions

Net Position Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund Balance Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

10. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of the \$7,940,138 difference are as follows:

Bonds payable	\$ 7,405,000
Issuance premium	146,730
Compensated absences	225,018
Net pension liability	26,573
Net OPEB obligation	56,272
Accrued interest payable	80,545
	<u>\$ 7,940,138</u>

NOTE 3. DEPOSITS AND INVESTMENTS

Deposits

In addition to insurance provided by the Federal Depository Insurance Corporation, all deposits are held in banking institutions approved by the State Treasurer of the State of Florida to hold public funds. Deposits include cash on hand. Under Florida Statutes Chapter 280, *Florida Security for Public Deposits Act*, the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or another banking institution eligible collateral. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Accordingly, all amounts reported as deposits are insured or collateralized.

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Investments

The Town's investment policy follows the requirements of Florida Statutes Chapter 218.415, and attempts to promote, in order of priority, safety of principal, adequate liquidity, and maximization of total return. The Town's investment policy authorizes investments in obligations of the U.S. Treasury, U.S. Government Agency securities, including FNMA, FHLMC, and GNMA, and securities guaranteed by these Agency issues, certificates of deposit, savings certificates, time deposits, banker's acceptances, repurchase agreements of domestic commercial banks and savings and loan associations fully collateralized with U.S. Government or Agency securities, commercial paper rated A1/P1 or the equivalent by a major rating service, money market funds exclusively comprised of the above securities, the State of Florida Local Government Surplus Funds Trust Fund, the FMIvT, and corporate bonds rated A or better. The investment policy defined in the statutes attempts to promote, through state assistance, the maximization of net interest earnings on invested surplus funds of local units of governments while limiting the risk to which the funds are exposed. The Town maintains a separate investment policy for its pension plan.

For the Town's pension plan, a Master Custodian Agreement is maintained whereby the investment securities are held in the Plan's name by a financial institution acting as the Plan's agent except for its shares in several pooled domestic equity index funds.

Investments – Town

The Town's investment policy limits the maturity of fixed-income holdings to ten years. As of September 30, 2015, the Town had the following investments and its corresponding maturities in its portfolio:

<u>Investments</u>	Investment Maturities (In Years)			
	Fair Value	<u>Less than 1</u>	<u>1-5</u>	<u>6-10</u>
U.S. agency securities	\$ 83,485	\$ --	\$ 83,485	\$ --
U.S. Treasury Notes	2,966,139	--	2,634,097	332,042
Local Government Bonds	192,787	60,468	132,319	--
Corporate bonds	<u>2,871,400</u>	<u>93,096</u>	<u>2,131,443</u>	<u>646,861</u>
	<u>\$ 6,113,811</u>	<u>\$ 153,564</u>	<u>\$ 4,981,344</u>	<u>\$ 978,903</u>

Interest Rate Risk

Interest rate risk refers to the portfolio's exposure to fair value losses arising from increasing interest rates. The Town's investment policy limits investment maturities to ten years in order to control its exposure to market value losses arising from increasing interest rates.

TOWN OF BAY HARBOR ISLANDS, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Investments – Town (Continued)

Credit Risk

State law and the Town's investment policy limits investments in bonds, U.S. treasuries and agency obligations, or other evidences of indebtedness to the top ratings issued by nationally recognized statistical rating organizations of the United States. The Town's corporate bonds and agency bonds were all rated "A" or better under Standard & Poor's ratings and "A" or better under Moody's ratings.

Concentration of Credit Risk

The Town's investment policy does not stipulate any limit on the percentage that can be invested in any one issuing company. As of September 30, 2015, the value of each position held in the Town's portfolio comprised less than 5% of the Town's investment assets.

Investments – Pension Plan

The Plan's investment practices are governed by the Florida Statutes and the Plan's adopted investment policy. Florida Statutes and Plan policy authorize the Board of Trustees to invest in domestic stocks, domestic bonds, international stock and tactical assets allocation equities. In addition to complying with Plan policy, the Plan applies the "Prudent Man Rule" when executing investment strategies. Investments are made with judgment and care, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income derived.

To diversify plan assets so as to minimize the risk associated with dependence on the success on one enterprise, the Board of Trustees has decided to employ a multi-manager team approach to investing plan assets. Asset managers are employed to utilize individual expertise within their assigned area of responsibility. Each manager is governed by individual investment guidelines. The Plan's investment consultant oversees the investment managers and the entire portfolio.

The Plan's asset management structure established by the policy is as follows:

Type	Available Range %	Target
Domestic equity	30%-50%	40%
Domestic bonds (fixed income)	25%-60%	35%
International equity	0%-15%	10%
Diversified assets	0%-15%	10%
Emerging markets (foreign equity)	0%-7.5%	5%

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Investments – Pension Plan (Continued)

As of September 30, 2015, the Plan had the following debt securities and its corresponding maturities in its portfolio:

<u>Investments</u>	Investment Maturities (In Years)				
	<u>Fair Value</u>	<u>Less Than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>Over 10</u>
U.S. Treasury Notes	\$ 1,989,203	\$ --	\$ --	\$ 331,653	\$ 1,657,550
U.S. agency securities	2,929,042	181,225	418,208	1,219,185	1,110,424
Corporate bonds	<u>1,217,592</u>	<u>--</u>	<u>--</u>	<u>1,217,592</u>	<u>--</u>
	<u>\$ 6,135,837</u>	<u>\$ 181,225</u>	<u>\$ 418,208</u>	<u>\$ 2,768,430</u>	<u>\$ 2,767,974</u>

Interest Rate Risk

Interest rate risk refers to the portfolio's exposure to fair value losses arising from increasing interest rates. The Plan does not have a formal investment policy that limits investment maturities as a means of managing its exposure to market value losses arising from increasing interest rates.

Credit Risk

State law and the Plan's investment policy limits investments in bonds, stocks, or other evidences of indebtedness to the top ratings issued by nationally recognized statistical rating organizations of the United States. The Plan's investment policy limits fixed income investments to a rating no lower than Baa/BBB or equivalent.

The Plan's corporate bonds and agency bonds were all rated "A" or better under Standard & Poor's ratings and at least "A" under Moody's ratings.

Concentration of Credit Risk

The Plan's investment policy prohibits fixed income concentrations greater than 5% in any one issuer with the exception of U.S. government or agency issues. As of September 30, 2015, the value of each position held in the Plan's portfolio comprised less than 5% of Plan net position.

Rate of Return

For the fiscal year ended September 30, 2015, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was -1.56%. The money-weighted rate of return expresses investment performance, net of investment manager and consultant expenses adjusted for the changing amounts actually invested. Inputs to the internal rate of return calculation are determined on a monthly basis.

NOTE 3. DEPOSITS AND INVESTMENTS (Continued)

Risks and Uncertainties

The Town and the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements. The Town and the Plan, through its investment advisor, monitors the investments and the risks associated therewith on a regular basis which the Town and the Plan believes minimizes these risks.

NOTE 4. RECEIVABLES

Receivables as of September 30, 2015 for the Town's individual major funds and fiduciary funds including the allowances for uncollectible accounts, are as follows:

NOTE 5. PROPERTY TAXES

Property values are assessed on a county-wide basis by the Miami-Dade County Property Appraiser as of January 1, the lien date, of each year and are due the following November 1. Taxable value of property within the Town is certified by the Property Appraiser and the Town levies a tax millage rate upon the taxable value, which will provide revenue required for the fiscal year beginning October 1.

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 5. PROPERTY TAXES (Continued)

Property taxes levied each November 1, by the Town and all other taxing authorities within the County, are centrally billed and collected by Miami-Dade County, with remittances to the Town of their proportionate share of collected taxes. Taxes for the fiscal year beginning October 1 are billed in the month of November, subject to a 1% per month discount for the period November through February, and are due no later than March 31. On April 1, unpaid amounts become delinquent with interest and penalties added thereafter. Beginning June 1, tax certificates representing delinquent taxes with interest and penalties are sold by Miami-Dade County, with remittance to the Town for its share of those receipts. At September 30, 2015, there were no material delinquent taxes.

NOTE 6. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of September 30, 2015 is as follows:

Revenue Bonds – Series 2003B

On December 17, 2003, the Town issued \$9,360,000 of bonds to finance various capital expenditures that comprise a portion of a program of community enhancements to include roads, drainage, lighting, landscaping and improvements to the Town's business district and causeway corridor. The bonds are collateralized by a pledge of the Town's half-cent sales tax, franchise fees, and utility taxes. On December 3, 2012, the Town advance refunded \$4,445,000 of the bonds with proceeds of the Promissory Refunding Note, Series 2012 (Sales Tax), as described below. There was no deferred amount on refunding. The total principal and interest remaining on the Series 2003B bonds is \$5,520,875. For the current year, debt service and pledged revenues were \$152,750 and \$1,250,934, respectively. The interest rates on the remaining bonds range from 5% to 5.25% and the final maturity date is December 1, 2033.

State Revolving Fund Loan

In April 1998, the Town entered into a revolving loan agreement with the State of Florida Department of Environmental Protection. Through September 30, 2015, the Town has borrowed \$1,105,855 under the agreement to finance the planning and design of a sewer rehabilitation and replacement project. Debt service payments pursuant to the agreement are collateralized by net revenues of the sewer system. The total principal and interest remaining on the note is \$451,920. For the current year, pledged revenues were \$954,041 and debt service on the note was \$75,320. The combined interest and grant allocation rate (interest) ranges from 3.07% to 3.08%, depending upon the date the funds were approved. Principal and interest payments of \$37,660 are due semi-annually for a period of 20 years. The semi-annual payment is calculated based upon the full amount of principal approved, which is \$1,155,900. Utilization of any additional revolving loan funding beyond the presently approved amount will be at the then current interest and grant allocation rate as determined by the Department of Environmental Protection.

NOTE 9. COMMITMENTS AND CONTINGENCIES

Litigation

At times during the year, the Town is involved in lawsuits or other legal matters incidental to its operations, the outcome of which, in the opinion of management and legal counsel, would not have a material adverse effect on the financial condition of the Town.

Risk Management

The Town is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, workers compensation, and natural disasters for which the Town carries commercial insurance. There was no reduction in insurance coverage from coverages in the prior year and there were no settlements that exceeded insurance coverage for each of the past three years.

NOTE 10. DEFINED BENEFIT PENSION PLAN

Plan Description

The Town has a single-employer defined benefit pension plan covering all full time general employees and police officers with one year of service. The Plan issues a publicly available financial report that includes financial statements and required supplementary information. The Plan's fiduciary net position has been determined on the same basis that is used by the Plan. This report may be obtained by contacting the Town's Finance Director or visiting the Town's website.

The Town of Bay Harbor Islands Employees' Retirement System was established by the Town's Ordinance 226 effective January 12, 1970. The Plan is considered part of the Town's financial reporting entity and is included in the Town's financial statements as a pension trust fund. All full-time general employees and police officers with one year of service are eligible. The latest actuarial valuation is as of October 1, 2014 (beginning year of valuation date). Benefit and contribution provisions are established by Chapter 16 of the Town Code and may be amended only by the Board of Trustees, subject to approval of the Town Council. Administrative costs of the Plan are funded through investment earnings.

The Plan is administered by a Board of Trustees comprised of:

- The Town Manager (a permanent member of the Board by Ordinance)
- Two members of the Town Council elected by the Town Council
- A police officer elected by his fellow officers
- A general employee elected by his fellow general employees

Membership in the Plan as of October 1, 2014, was as follows:

Inactive plan members and beneficiaries currently receiving benefits	37
Inactive plan members entitled but not yet receiving benefits	7
Active plan members	<u>60</u>
Total members	<u>104</u>

General employees become fully vested after 5 years of credited service. Police officers become partially vested (50%) after 5 years of credited service, increasing 10% annually, with full vesting after 10 years.

NOTE 10. DEFINED BENEFIT PENSION PLAN (Continued)

Pension Benefits

Normal retirement is as follows:

- General employees who retire at the earlier of age 52 with twenty years of credited service, age 55 with ten years of credited service or at age 65 regardless of time of service.
- Police officers who retire at the earlier of age 50 with twenty years of credited service, age 55 with ten years of credited service or at age 65 regardless of time of service.

Under special circumstances, the Plan also provides for delayed retirement benefits and disability retirement benefits. A member may elect to receive a lump sum at retirement for an amount which is the actuarial equivalent of the benefits otherwise payable under the Plan.

Normal retirement benefits for general employees are based on 1.25% of average final compensation. For police, the multiplier is 1.75% for service before October 1, 2005, 3% after that date and before October 1, 2006, and 3.25% thereafter. For general employees and for police service before October 1, 2005, the multiplier may increase depending upon the members' contribution rate.

A terminating member with less than five years creditable service shall receive his/her contribution plus accrued interest accumulated since initial employment.

Contributions and Funding Policy

General employees are required to contribute 2% of their compensation, and may elect to make additional voluntary contributions up to 10%. Effective October 1, 2006, the mandatory contribution for police is 8% and no additional voluntary contributions are permitted. Employer contributions for fiscal year ended September 30, 2015 and 2014 were 17.7% and 25.4%, respectively, of covered payroll. The contribution requirements of the Town for the fiscal year ended September 30, 2015 were determined by the October 1, 2013 actuarial valuation. Pursuant to Chapter 185 of the Florida Statutes, a premium tax on certain property and casualty insurance contracts, written on Town of Bay Harbor Islands properties, is collected by the state and is remitted to the Town. The State of Florida also distributes money to local governments meeting certain eligibility requirements which is intended to purchase supplemental pension benefits for police officers.

In the fiscal year 2015, \$41,859 was received by the Town from the State and recorded in the general fund as revenue and as a contribution (expenditure) to the Plan. Of that amount received from the State, \$16,746 goes towards funding the actuarially determined annual required contribution for the Plan and \$25,113 goes towards the purchased supplemental benefits.

NOTE 10. DEFINED BENEFIT PENSION PLAN (Continued)

Contributions and Funding Policy (Continued)

The Plan's funding policy provides for actuarially determined periodic employer contributions sufficient to pay the benefits provided by the Plan when they become due. The actuarial cost method used for determining the contribution requirements of the Plan is the entry age normal cost method.

Share Plan / Supplemental Benefits

The Town participates in the State of Florida Chapter 185 program. As a participant in the program, the Town is eligible to receive annual distributions of state premium tax collections on property and casualty insurance policies written within the Town limits. Chapter 185 levies a 0.85 percent tax on all casualty insurance premiums written within the Town limits. The monies received by the Town are for the purpose of providing benefits to or for the exclusive use of police officers. A portion of the amounts received as noted above (\$25,113) goes towards the supplemental benefits. The aggregate investment balance of these funds at September 30, 2015 is \$223,769, which is accounted for in the pension trust fund.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Method Used to Value Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Securities traded on a national exchange are valued at the last reported sales price. Investments that do not have an established market are reported at estimated fair value. Net appreciation in fair value of investments includes realized and unrealized gains and losses. Realized gains and losses are determined on the basis of specific cost. Purchases and sales of securities are recorded on the trade-date basis. Interest and dividends are recorded as earned on the accrual basis.

Within certain limitations as specified in the Plan, the investment policy is determined by the Board of Trustees and is implemented by the Plan's investment managers.

NOTE 10. DEFINED BENEFIT PENSION PLAN (Continued)

Significant Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Discount Rate	5.84%
Inflation	3.00%
Salary increases	4.00% per annum
Measurement Date	September 30, 2014, based on a valuation date of October 1, 2013
Ad-hoc Cost of Living Increases	None
Mortality Rates	Sex-distinct rates set forth in the RP-2000 Mortality

Table for annuitants, projected to 2007 by Scale AA, as published by the Internal Revenue Service (IRS) for purposes of Internal Revenue Code (IRC) section 430: future generational improvements in mortality have not been reflected.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2014 are summarized in the following table:

Asset Class	Expected Long-Term Real Return
Large cap (domestic equity)	8.1%
Mid cap (domestic equity)	10.2%
Small cap (domestic equity)	8.1%
Fixed Income	2.9%
Foreign Equity (international equity)	5.2%
Diversified assets	6.5%

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 10. DEFINED BENEFIT PENSION PLAN (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 5.84%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town's Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 5.84%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.84%) or 1-percentage-point higher (6.84%) than the current rate:

	1% Decrease (4.84%)	Current Discount Rate (5.84%)	1% Increase (6.84%)
Net pension liability (asset)	\$ 539,121	\$ 35,454	\$ (416,990)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2015, the Town reported a net pension liability of \$35,454 (September 30, 2014, measurement date). The net pension liability was measured as of September 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of October 1, 2013. For the fiscal year ended September 30, 2015, the Town recognized pension expense of \$674,623. In addition, the Town reported deferred outflows of resources and deferred inflows of resources related to the Plan from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Unexpected investment income	\$ --	\$ 311,512
Town contributions subsequent to the measurement date	674,623	--
Total	\$ 674,623	\$ 311,512

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The deferred outflows of resources totaling \$674,623, resulting from Town contributions to the pension subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2016. The amount reported as a deferred inflow of resources related to the pension will be recognized in pension expense over the four (4) remaining years as follows:

<u>Fiscal Year Ending September 30</u>	<u>Amount</u>
2016	\$ 77,878
2017	77,878
2018	77,878
2019	<u>77,878</u>
Total	<u>\$ 311,512</u>

Payable to the Pension Plan

At September 30, 2015, the Town reported a payable of \$41,859 for the outstanding amount of contributions to the pension plan required for the year ended September 30, 2015.

NOTE 11. OTHER POST EMPLOYMENT BENEFITS

Plan Description

The Town provides an optional single employer defined-benefit post-employment healthcare plan to all regular employees of the Town who retire from active service and receive retirement benefits under the Town's pension plan. The plan allows its employees and their beneficiaries, at their own cost, to continue to obtain health, dental and other insurance benefits upon retirement. The benefits of the plan conform to Florida Statutes, which are the legal authority for the plan. The plan has no assets and does not issue a separate financial report.

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 11. OTHER POST EMPLOYMENT BENEFITS (Continued)

Funding Policy and Annual OPEB Cost

The Town does not directly make a contribution to the plan on behalf of retirees. Retirees and their beneficiaries pay the same group rates as are charged to the Town for active employees by its healthcare provider. However, the Town's actuaries, in their actuarial valuation, calculate an offset to the cost of these benefits as an Employer Contribution, based upon an implicit rate subsidy. This offset equals the total age-adjusted costs paid by the Town or its active employees for coverage of the retirees and their dependents for the year net of the retiree's own payments for the year.

The annual other post-employment benefit (OPEB) cost is calculated based on the annual required contribution of the employer, an amount actuarially determined in accordance with GASB Statement No. 45. The annual required contribution represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed thirty years.

The annual OPEB cost for the Town for the current year and the related information is as follows (all amounts rounded):

Required contribution rates:

Employer	Pay-as-you-go
Plan members	N/A
Normal cost	\$ 8,000
Interest on net OPEB obligation	4,000
Adjustment to ARC	(13,000)
Amortization	<u>22,000</u>
Annual OPEB cost	21,000
Contributions made	<u>(17,000)</u>
Increase in net OPEB obligation	4,000
Net OPEB obligation, beginning of year	<u>107,000</u>

Three-Year Trend Information

The annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation is as follows:

	Fiscal Year Ended September 30,		
	2015	2014	2013
Annual OPEB cost	\$ 21,000	\$ 22,000	\$ 30,000
Percentage of OPEB cost contributed	81%	105%	60%
Net OPEB obligation	\$ 111,000	\$ 107,000	\$ 108,000

Funded Status and Funding Progress

The funded status of the plan as of October 1, 2013, the date of the latest actuarial valuation, was as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL)* (b)	Unfunded AAL (UAAL) (b) - (a)	Funded Ratio (a) ÷ (b)	Covered Payroll (c)	UAAL as a % of Covered Payroll ((b - a) ÷ c)
10/1/2013	\$ --	\$ 182,000	\$182,000	0.0%	\$3,470,000	5.2%

The actuarial valuation for the calculation of OPEB involves estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information is designed to provide multi-year trend information to show whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. However, the Town has not contributed assets to the plan at this time.

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the Town and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Valuation date	October 1, 2013
Actuarial cost method	Project unit credit
Amortization method	10-year open period; level-dollar payment
Actuarial assumptions:	
Investment rate of return*	4.0% compounded annually
*Includes inflation at	2.75% per year
Healthcare cost trend rate(s):	Insurance Premiums
Select rates	7.0% for 2013/14 graded to 5.50% for 2016/17
Ultimate rate	5% per annum

NOTE 12. PRIOR PERIOD ADJUSTMENT

Due to the implementation of GASB Statement No. 68 and 71, the Town recorded a prior period adjustment to eliminate the net pension asset, to record the net pension liability and related deferred inflows and outflows of resources as of September 30, 2014, for a measurement period of September 30, 2013.

REQUIRED SUPPLEMENTARY INFORMATION

NOTE TO BUDGETARY COMPARISON SCHEDULE

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

NOTE 1. BUDGETS AND BUDGETARY ACCOUNTING

An annual appropriated budget is prepared for the General Fund.

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

- (a) The Town Manager submits to the Council a proposed operating budget for the ensuing fiscal year. The operating budget includes appropriations and the means of financing them with an explanation regarding each expenditure that is not of a routine nature.
- (b) Public hearings are conducted to obtain taxpayer comments.
- (c) Prior to October 1, the budget is legally enacted through passage of an ordinance.
- (d) The Town Council, by motion, may make supplemental appropriations for the year up to the amount of revenues in excess of those estimated or from available fund balance. During fiscal year ended September 30, 2015, there were supplemental appropriations of approximately \$740,800.
- (e) Formal budgetary integration is employed as a management control device for the General Fund. Budget amendments were not material in relation to the original appropriation.
- (f) The budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP).
- (g) The Town Manager is authorized to transfer part or all of an encumbered appropriation balance within departments within a fund; however, any revisions that alter the total appropriations of any department or fund must be approved by the Town Council. Therefore, the legal level of control is at the department level.

REPORTING SECTION

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Mayor, Town Council and Town Manager
Town of Bay Harbor Islands, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Bay Harbor Islands, Florida (the Town), as of and for the fiscal year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated March 21, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**MANAGEMENT LETTER IN ACCORDANCE WITH THE RULES OF THE
AUDITOR GENERAL OF THE STATE OF FLORIDA**

Honorable Mayor, Town Council and Town Manager
Town of Bay Harbor Islands, Florida

Report on the Financial Statements

We have audited the financial statements of the Town of Bay Harbor Islands, Florida (the Town), Florida, as of and for the fiscal year ended September 30, 2015, and have issued our report thereon dated March 21, 2016.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reports

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated March 21, 2016, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. As more fully described in Note 1, the Town of Bay Harbor Islands was incorporated by the Laws of Florida Chapter 2889. There are no component units related to the Town.

Financial Condition

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, requires that we apply appropriate procedures and report the results of our determination as to whether or not the Town has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the Town did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the Town's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. This assessment was done as of the fiscal year end.

Annual Financial Report

Section 10.554(1)(i)5.b. and 10.556(7), Rules of the Auditor General, requires that we apply appropriate procedures and report the results of our determination as to whether the annual financial report for the Town for the fiscal year ended September 30, 2015, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2015. In connection with our audit, we determined that these two reports were in agreement.

Other Matters

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal, State and other granting agencies, the Honorable Mayor, Town Council, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE PURSUANT TO
SECTION 218.415 FLORIDA STATUTES**

Honorable Mayor, Town Council and Town Manager
Town of Bay Harbor Islands, Florida

We have examined the Town of Bay Harbor Islands, Florida's (the Town) compliance with Section 218.415 Florida Statutes for the fiscal year ended September 30, 2015. Management is responsible for the Town's compliance with those requirements. Our responsibility is to express an opinion on the Town's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the Town's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the Town's compliance with specified requirements.

In our opinion, the Town of Bay Harbor Islands, Florida complied, in all material respects, with the aforementioned requirements for the fiscal year ended September 30, 2015.

This report is intended solely for the information and use of management, Town Council, others within Town and the Auditor General of the State of Florida and is not intended to be and should not be used by anyone other than these specified parties.
