

What's Available? Grants and Other Resources

Friday, April 24, 2020 • Tallahassee • 9:00 a.m. - 2:30 p.m.
Sittig Hall, Florida League of Cities, 301 S. Bronough Street

Securing funding for needed projects can be a priority for local governments. Grants and technical assistance exist, but navigating the process can be daunting.

The Florida League of Cities is hosting a morning workshop to bring together federal and state agency representatives to review their grants and/or technical assistance programs. Find out how you can obtain funding for your local beautification projects or receive grants to promote the protection and effective management of Florida coastal resources.

In the afternoon, there will be time to meet with agency representatives face-to-face to ask questions about your city's specific needs.

This workshop is free to FLC member cities; however, online preregistration is required. Attendees must register by April 15 to guarantee a seat and a lunch. We cannot guarantee reservations after the deadline. To register, [click here](#).

NOTE: If you have previously registered online for a Florida League of Cities event but cannot remember your credentials, click on the "forgot" option, and the system will send an email to you with instructions to reset them. If you have trouble opening the links, we encourage you to try using the Google Chrome web browser instead of Internet Explorer or to click on the registration link from the "Calendar" under "Education + Events." Be sure to fill out the "Badge Information" in the registration process.

Parking is available in the Kleman Parking Garage. Enter through the garage entrance at 200 S. Duval Street. Sittig Hall is located in the Florida League of Cities building on the plaza level. The Challenger Center is located on the plaza level across from Sittig Hall.

For more information, email Jan Piland at jpiland@flcities.com.
