# City Trivia

## For Middle School Students

---

### OVERVIEW

City Trivia is an interactive way to engage students in city government. Students will need a lesson in city government prior to playing City Trivia. The Florida League of Cities has provided a PowerPoint template with questions, but you are encouraged to work with your local teachers to prepare a version that best fits the students' needs.

### YOUR ROLE

Your role in this exercise is to work closely with your local teacher(s) to provide students with a lesson on city government, with an emphasis on the questions in the City Trivia game. Then your role will be to act as the "host" of City Trivia.

### RESOURCES/MATERIALS

- Trivia template
- *My City: I'm Part of It, I'm Proud of It* (found [here](#))
- Trivia question study guide
- Buzzer/bell system
- Score sheet
- Pencils
- Two pieces of paper per group
- Optional: Music (game show music can be found on YouTube)
- Optional: Timer

### PREPARATION

- Keep or change the text of the template. *Please note: The "Your City" section has blanks for you to fill in about your city. These blanks are in the title ("Your City [insert name]") and in the "Your City" questions, including a localized question that you add.*
- Work with the teacher(s) to provide a lesson on city government, with an emphasis on the questions in the City Trivia game. Study materials for students should be provided as well.
  - In the template provided: all questions were formed from lessons found in the Florida League of Cities' *My City: I'm Part of It, I'm Proud of It* booklet (specifically pages 6-14 and p. 24).
- Classroom layout: Place students' desk in groups, all facing the front of the classroom.

## PROCEDURE

- Optional: Review materials with students prior to the game.
- Place students in groups, and provide each group with a buzzer/bell, pencils and two pieces of paper.
- Review the rules of City Trivia with the students. (See below.)
- Optional: Prepare a tie-breaker question.

## CITY TRIVIA RULES

### How to keep score:

- Ask one student to keep score. This student will need to be able to quickly add and subtract.
- Use a whiteboard (recommended) or a large piece of paper to track the scores. It is important that each group can always see their score.
- Scores can be positive or negative.
- For each question answered correctly, the group gains the amount of the question. For each question answered incorrectly, the group loses the amount of the question.
- For example, at the beginning of the game, each group's score is \$0. Group A selects the \$200 City Services question. They answer it correctly, so their score becomes \$200. Then, Group A selects the \$300 City Services question, but they answer incorrectly. Group A's score now becomes \$-100.

### Answer format:

- Explain to students that the answers should be in the form of a question. For example, "What is \_\_\_\_\_?"

### Beginning the game

- To begin the game, the host should pick the first question. On the slide with the City Trivia board, ctrl-click (or on a Mac computer, click) on the dollar amount to open the question. Any team can buzz in to answer. The team that buzzed in first answers the question. Proceed to the next slide to see the correct answer.
- Return to the City Trivia board by clicking on the home image in the lower left corner. If the group answers the question correctly, they choose the next question.
- If they do not answer the question correctly, the next team to buzz in can answer the question and so on.
- If no team can answer the question correctly, allow the last team that attempted the question to pick the next question.
- Contestants have 30 seconds to respond.

### Daily Double questions:

- Students can choose to bet more or less money on the question than the amount on the board. They can bet from \$5 up to the amount of money they currently have. (This is why it is important that scores are visible.)

### Final City Trivia:

- Groups must have a score greater than zero to play in Final City Trivia.

- Begin Final City Trivia by showing the "Final City Trivia Topic" slide. Ask each group to place a bet (any amount is acceptable), and write it on the first piece of paper so that it is visible to the scorekeeper.
- After each group places their bet, go to the next slide to read the Final City Trivia question. Groups have two minutes to respond, and they should write their answer on the second piece of paper, then lay the paper facedown.
- One by one, ask groups to reveal their answers. The correct answer is on the last slide. Tally up final scores, and announce the winner.
